LANGUAGES

English - Fluent • Ukrainian - Native • Russian - Native

WORK EXPERIENCE

Neo Cybernetica, Ukraine – Junior Python Developer

June 2022 - August 2023

- Worked with SQL databases to design schemas, write complex queries, and optimize database performance.

- Utilized Python frameworks such as Flask.

- Implemented data processing pipelines using libraries like Pandas and NumPy to analyze and transform large datasets.

- Integrated third-party APIs and services to enhance functionality, such as payment gateways and authentication systems.

EDUCATION

National University "Odessa Maritime Academy" – Sea and River Transport Navigation (Master's Degree)

September 2014 - December 2019

COURSES

Udemy – 100 Days of Code - The Complete Python Pro Bootcamp by Dr. Angela Yu

SKILLS AND COMPETENCIES

- Python programming
- Web development (Flask)
- Database management (SQLite, SQLAlchemy)
- API İntegration

- Version Control (Git, GitHub)
- HTML5
- Pandas and NumPy
